

# RESIDENTIAL BEST MANAGEMENT PRACTICE COST-SHARE PROGRAM

The Chisago Lakes Lake Improvement District (LID) and the Chisago Soil & Water Conservation District (SWCD) have partnered together to provide cost-share incentives for up to 50% (\$1,500) of the cost of installing a water quality best management practice (BMP) on their property. Projects installed in 2019 include: native plantings, shoreline restorations, and hillside erosion control practices.

This year, SWCD staff met with over 20 landowners within the watershed, 5 landowners applied for cost-share and 3 completed their projects within the calendar year.

## Partners:

Chisago Lakes LID  
Chisago SWCD

## Targeted Water:

Chisago Lakes  
Chain of Lakes

## Completion Date:

2019
