

Application for Election/Appointment to the Chisago Lakes Lake Improvement District Board of Directors

Todd McBride

Last Name: McBride

First Name: Todd

Address: 206 Calendar Isle

City: Center City

State: Minnesota

Zip: 55012

In which Lake Improvement District Area do you reside? Area 1

In which Lake Improvement District Area do you wish to apply / be elected? At Large

List experience or skills you have relating to the election/appointment you are seeking:

In March of 2020, I was appointed as the Area 7 Director by the LID Board. In the short time I've been on the board, we completed a project that removed the bogs and greatly improved navigation in the channel between North Center and North Lindstrom Lakes. We also recently adopted the "Lower St. Croix River One Watershed, One Plan" which will greatly benefit our lakes in various ways. Outside of the LID, I've been with Rosenbauer for the last 15 years in numerous roles and have recently taken on the start-up of a new business segment that will create and deliver a platform of digital products for firefighters allowing them to do their job more safely and effectively. I'm a goal-oriented team player with a strong attention to detail but also flexible enough to work with others to find the best approach to a solution. These characteristics have proven to be very beneficial when serving on a board of directors such as the LID.

List special or personal interests relating to the election/appointment you are seeking:

I grew up on the lake and relocated to Minnesota for work in 2005. The Chisago Lakes are what drew me to the area and I eventually purchased my home on North Center Lake in 2015. I have been active with the Center Lakes Association with the aquatic invasive species program, publishing "The Scuttlebutt" newsletter as well as helping to maintain the association's website and social media accounts.

Why do you want this election/appointment?

I'm proud of the work we've been able to accomplish since I've been a LID Director and at the same time excited about future projects. I spend much of my summer and winter recreational time on the lakes and I've seen first hand the improvements in water quality due to the progressive management of aquatic invasive species from the LID and local lake associations. Understanding that the lakes are a vital part of Chisago County's economic development and growth, I will continue to support these practices as a LID Director to help pave the way for a bright future for the Chisago Lakes region.
