

Child Care Locator App

There are three main ways to get information using this link: [Child Care Providers in Chisago County \(arcgis.com\)](https://arcgis.com)

- Click on any identified Child Care location point on the map. This will open a pop-up window with basic details such as name, address and phone number.

- In the upper left corner there are two tools. If you hover over the tools, they will provide you details of what they do.
 - **Locate a Provider Near Me** tool. This will open a small window that you can enter your address. It will then search a specified distance around that address and bring up a list of providers within that search radius.
 - **Provider Search**. If you click on this tool, you can enter the name of a child care provider (for family child care start entering the last name first) and click on the one you'd like to zoom to.

- At the bottom middle of the map there is an 'up' arrow. If you click on that arrow, a table with all providers viewable on the page will open. (you can also extract that list by using the Options choice in the upper left of the table)
