

MAPLE STREET NEIGHBORHOOD RAIN GARDENS—LINDSTROM, MN

Seven rain gardens were installed in the Maple Street Neighborhood north of Highway 8 in Lindstrom. Three boulevard rain gardens were installed between the street and the sidewalk. One rain-leader disconnect rain garden was installed in the backyard of one residence. A curb cut rain garden was also installed along Maple Street.

Two additional curb cut rain gardens were installed along the alley between Maple Street and North Lakes Trail. These two gardens intercept water from the alley way.

Together, these seven gardens reduce the flow of stormwater runoff reaching a large gully at the end of Maple Street.

Partners:

Landowners
Chisago Soil & Water Conservation District
City of Lindstrom
