Forest Lake City Center - Community Room
1408 Lake Street S., Forest Lake
RSVP angie.hong@mnwcd.org or 651-330-8220 x.35

[AIS Prevention, Early Detection, and Rapid Response Planning](#)

On May 19 and November 14, 2016, the Chisago Lakes Lake Improvement District (LID) and Lake Associations in the Chisago Lakes Chain of Lakes Watershed participated in two Chisago & Washington Lakes meetings that were sponsored by the Washington Conservation District.

Chisago & Washington Lakes Meeting
Thursday, May 19, 6:30-8pm
Scandia Community Center

Attack of the Eurasian watermilfoil

* Learn how to identify Eurasian watermilfoil, what to expect if this non-native, invasive plant is in your lake, and what treatment options exist. We'll share case studies & current research, and talk about permits for control efforts.

May 19, 6:30-8pm at the Scandia Community Center
14727 209th St N.

Partners:

- Chisago Lakes LID
- Chisago County
- Washington Conservation District
- Lake Associations located in the Chisago Lakes Chain of Lakes Watershed

Collaboration:

- The meetings helped participants identify and understand treatment options for Eurasian watermilfoil and to coordinate planning efforts to address aquatic invasive species (AIS).
