

ONE WATERSHED ONE PLAN (1W1P) LOWER ST. CROIX WATERSHED

On January 18, 2017, the Chisago County Board of Commissioners approved a resolution to support a Lower St. Croix Watershed, One Watershed, One Plan (1W1P) Implementation Framework Project. Through the 1W1P process, Counties, Soil and Water Conservation Districts, and Watershed Management Organizations within the Lower St. Croix watershed are working together to develop a new watershed based management plan with basin-wide priorities and goals. Funding will be available through the Minnesota Board of Soil & Water Resources to implement the priorities and goals identified in the plan.

In 2017, local entities within the Lower St. Croix Watershed developed a Work Plan, project budget and timeline to develop the new watershed based plan. There are several committees identified in the Work Plan that will meet to develop a draft plan and make final plan recommendations. Over the next two years, the various committees will meet to develop the comprehensive watershed management plan for the Lower St. Croix Watershed.
